

BOEING SUPPLIER SPOTLIGHT: PENNANT INTERNATIONAL GROUP

Pennant International Group provides integrated training technologies and product support for the defence, aerospace, rail and other industries. Operating since 1958, the UK company is based in Cheltenham, Gloucestershire, with additional sites in Manchester and Hampshire, and globally in the US, Canada and Australia. Pennant provides simulated training systems to support Boeing's UK Apache helicopter training programme for groundcrew and maintainers.

“ Pennant has always been committed to the long-term prosperity of the UK's engineering base and associated supply line. Throughout its 65-year history, Pennant has a proven record of utilising UK capabilities.”

David Clements, Commercial Director, Pennant
